

Meeting with Michael from Kirkwells

As representatives of Harbury Parish Council Samantha Allen and Pat Summers met Michael Wellock from Kirkwells in Leamington Spa on 29th May 2015 at 2pm.

In February 2015 Neil Pearce from the Avon Planning Service told the Steering Group that they should use data collected in October/November 2013 as a starting point for the Neighbourhood Development Plan. It was a valuable resource which should not be wasted.

Michael agreed that this was the right strategy. He had been emailed information produced between October 2013 and April 2015, as well as some of the draft objectives and policies.

Samantha updated Michael on the comments made at the Open Afternoon and Pat showed him the minutes of Steering Group meetings.

Michael was pleased that the Steering Group had done such a lot of work on the draft objectives and policies and felt that he could put them together in an appropriate NP format. He wanted any final information to be emailed to him so that he could produce a "Discussion Document" to show to the Steering Group.

Once the "Discussion Document" has been looked at by members of the Steering Group Michael will visit Harbury to meet with them, and revise the draft according to their wishes. Meeting ended 4pm.

*The Steering Group meeting was later arranged for July 22nd 2015
– from 2pm in Harbury Library.*

A notice of this meeting was put on the Neighbourhood Plan Facebook page and three residents requested a copy of the draft as well as it being distributed to the Steering Committee.
